RESULTS OCTOBER 2022

Next walk
12th November 7.00 am
Udumung Reserve

Hello Birders

I believe we will be saying farewell to Joan Clarke from our Birding Group as a little bird tells me they are moving to Dongara. Joan will be missed and we wish her all the very best undertaking the move.

Great to see Olive again and her grandson, Kieran and Chiara, We thank him for driving Olive so we get to see her and she can enjoy birding with us.

Also great to see Stuart down with us over the summer months. Younger eyes always a bonus.

Sadly, Anne and Richard couldn't come on the day and I know they keenly anticipate the walk along the Bridle trail. A revegetated area that they are justly proud of and it certainly brings the birds. Could say "revegetate it and they will come".

We recorded the highest number of birds this year at the Bridle Trail, 37 in all. Great spotting for us. The Sacred Kingfisher was present with their mating calls.

I have prepared the schedule for 2023, please take a look and suggest any changes before I print them off for December birding at Chittering Lake. Open to any suggestions.

See you at the Udumung Reserve and hopefully we will spot the Western Yellow Robin.

Regards Rosanna and Sue

Scientific Name	Common Name
<i>Chenonetta jubata</i>	Australian Wood Duck
<i>Anas superciliosa</i>	Pacific Black Duck
