Sandy Soils Native Plants List

Flower Colour — Also suitable for loam, clay, gravel

Salt Tolerant — Wet Site Tolerant — * Specialist Salt plant

Trees over 15m

Corymbia calophylla	Marri		Dec-May	◆		
Eucalyptus marginata subsp. *thalassica*	Jarrah		Jun-Jan	◆		
Eucalyptus rudis	Flooded Gum		Jul-Sept	◆	💧	𝒮

Trees / Shrubs 5-15m

Banksia attenuata	Slender Banksia		Oct-Feb			
Banksia littoralis	Swamp Banksia		Sept-Jan		💧	
Banksia menziesii	Firewood Banksia		Feb-Oct			
Casuarina obesa	Swamp Sheoak		May-Jan	◆	💧	𝒮
Eucalyptus todtiana	Coastal Blackbutt		Jan-April			
Melaleuca preissiana	Moonah		Nov-Feb		💧	
Melaleuca rhaphiophylla	Swamp Paperbark		Jul-Jan	◆	💧	
Melaleuca teretifolia	Banbar		Oct-Mar		💧	

Shrubs 3-5m

Acacia saligna	Golden-Wreath Wattle		Jul-Dec		💧	𝒮
Jacksonia furcellata	Grey Stinkwood		Oct-Mar	◆	💧	
Melaleuca viminea	Monah		Jul-Nov		💧	𝒮
Viminaria juncea	Swishbush		Oct -Jan		💧	

Shrubs 1-3m

Acacia drummondii	Drummond's Wattle		Jun-Oct	◆		
Acacia lasiocarpa	Panjang		May-Oct	◆	💧	
Allocasuarina humilis	Dwarf Sheoak		May-Nov	◆		
Astartea fascicularis			May-Nov		💧	
Beaufortia sparsa	Swamp Bottlebrush		Jan-Nov		💧	
Beaufortia squarrosa	Sand Bottlebrush		Jan-Dec		💧	
Calothamnus quadrifidus	One-Sided bottlebrush		Jun-Dec	◆		
Grevillea crithmifolia			Jun-Nov			
Grevillea wilsonii	Native Fushia		Jan-Nov	◆		
Hakea incrassata	Marble Hakea		Jul-Nov			
Hakea lissocarpa	Honey Bush		May-Sept			
Hypocalymma angustifolium	White Myrtle		Jun-Oct	◆	💧	
Hypocalymma robustum	Swan River Myrtle		Jun-Nov			
Kunzea ericifolia	Spearwood		Jul-Dec			
Melaleuca lateritia	Robin Red-Breast		Aug-Oct		💧	
Regelia ciliata			Jan-Dec		💧	
Regelia inops			Mar-Oct		💧	

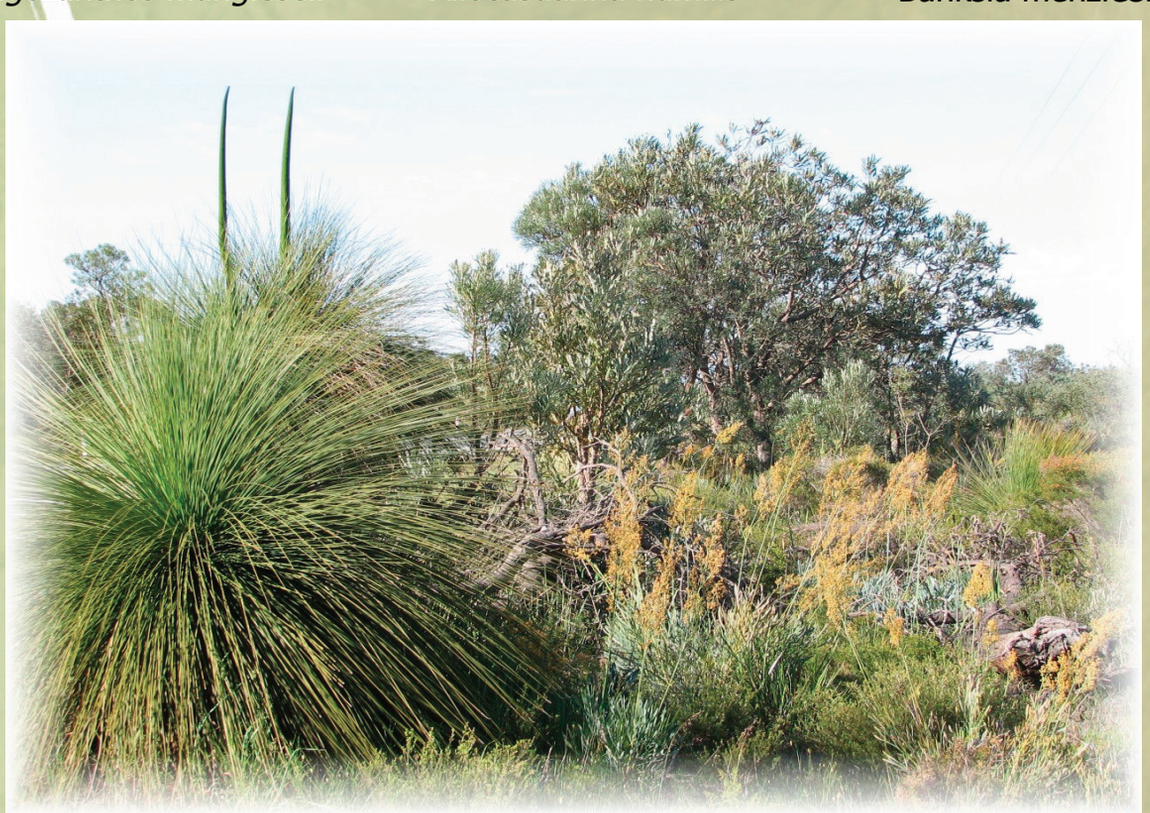
Shrubs Less than 1m

Anigozanthos humilis	Catspaw		Jul-Oct	◆	💧	
Anigozanthos mangleseii	Red & Green Kangaroo Paw		Aug-Nov	◆		
Anigozanthos viridis	Green Kangaroo Paw		Aug-Oct	◆	💧	
Dryandra nivea (*Banksia nivea*)	Honeypot Dryandra		April-Nov	◆		
Hardenbergia comptoniana	Native Wisteria		Jul-Oct			
Kennedia coccinea	Coral Vine		Aug-Nov			
Verticordia nitens	Morrison		Oct-Mar			
Verticordia plumosa	Plumed Featherflower		Jul-Feb	◆	💧	𝒮

Sandy Soils

These soils are common on the Swan Coastal Plain. They have a course texture and a high permeability. They are well draining, highly leached, water-repellent, and nutrient deficient. White, grey, pale-yellow, and brown colours are common. pH generally ranges between neutral (pH7) and acid (pH<5). The water table is within 2-5 meters of the surface and rises to within 1 meter of the surface during winter.

Anigozanthos mangleseii

Allocasuarina humilis


Banksia menziesii
